CHAPLAINCY & WELLBEING

Chaplaincy Services promote student wellbeing, engaging young people in activities that are preventative and which support early intervention and referral of mental health issues.

PRINCIPALS ARE SAYING...

(She) adds another layer to our student support. Students actively seek her out for a casual chat or more formal 1:1 conversation. Students who struggled in the yard have now learnt transferable skills. What she is doing is highly effective.

Primary School Principal

A lot of student problems never eventuate because the (PCW) has provided support and encouragement early on. The students always walk away from their time with the (PCW) with more bounce in their step....It is hard to imagine our school without thinking of our Worker.

Supporting School Communities Across South Australia Since 1991

Schools Ministry Group (SMG) coordinate and facilitate Chaplaincy Services in government schools across South Australia.

- School Chaplaincy commenced in SA Government schools in 1986.
- SMG partners with schools, local churches, state and federal governments to deliver Chaplaincy Services through the engagement of a Pastoral Care Worker.
- SMG works collaboratively with these partners in the recruitment, supervision and ongoing professional development of PCW's to ensure the placement of high quality workers who are well equipped to support young people and strengthen communities.
- Pastoral Care Workers are funded from two main sources - the National School Chaplaincy Program (administered by DforE) and the local church communities.
- The Chaplaincy Service provided through your PCW is a voluntary program offered to school communities.
